

This is the pinout for the plug attached to the wiring harness on an Evo 9.

Head unit wiring harness

1	2	3		4	5	6	
7	8	9	10	11	12	13	14

1 -- right rear (+)

7 -- right rear (-)

2 -- left rear (+)

8 -- left rear (-)

10 -- ignition

11 -- battery

5 -- left front (+)

13 -- left front (-)

6 -- right front (+)

14 -- right front (-)

3 -- antenna amplifier power (This can be attached to either the amplifier feed coming off the head unit, or it can be jumpered to acc/ignition power on the vehicle wiring harness)

4 -- display dim (when headlights are turned on)

9 -- unused

12 -- variable dim (most car stereos cannot use this feature)
