

- (2) Pass the valve timing belt around the exhaust-side camshaft sprocket, and hold the valve timing belt with paper clips.

- (3) Use two wrenches to align the timing mark on the rocker cover with that on the camshaft sprocket. Pass the valve timing belt around the inlet-side camshaft sprocket.

- (4) Hold the valve timing belt with paper clips.
- (5) Pass the valve timing belt around the timing belt tensioner pulley.

⚠ CAUTION

Incorporate the valve timing belt. Then apply reverse rotation (counterclockwise rotation) pressure to the cam shaft sprocket. Re-check to see that each timing mark is aligned while the tension side of the belt is tight.

- (6) Remove the two paper clips.
